

Sioux Crapemyrtle

Lagerstroemia x 'Sioux'

Abundant bubblegum pink blooms present a beautifully marked contrast to Sioux's dark green foliage. Sioux is among the best crapemyrtles for summer foliage. New growth is maroon-tinted with sand colored exfoliating bark. Known to be mildew resistant. Maturity is about 16' tall by 11' wide. Sioux's habit is vase shaped with the width being about 70-75% of the height. Zones 6-9.
